Judge James L. Tyson, Jr., was chosen to act as base ball commissioner.

The newly erected fence around the base ball field at city park is attracting a great deal of attention. 43 spaces have been built into the fence and will be sold to advertisers in an effort to help defray expenses of the field. Canal Point Post Office Receipts Show 69 Pct. Increase Over Year Ago

69 percent increase!
That's some increase!

Official records at the Canal Point post office show that receipts during the January, February, March period, 1962, have increased 69% over the same three months period in 1961. The announcement was made by Mrs. Edythe Smith, postmaster.

Items going to make up the fund which showed such a tremendous increase include post office box rent and stamp sales, postage on newspapers and magazines mailed locally, and does not include money order sales.

Money order sales during the three month period in 1962 amounted to \$70,000.00, a healthy increase over the same period a year ago.

The local post office has been climbing in receipts since modernization of the equipment a little more than two years when many services were made more readily available to the public. The outer lobby was completely rebuilt making hundreds of new and modern boxes available for rent to postal patrons.

The inner lobby was also modernized, providing the modern bank-type style counter over which to do business. New scales, new cancelling machine, new parcel post racks, new general delivery rack, a completely refurbished lighting system are among the things now available at the popular

local federal institution that is continuously reflecting the growth of the community.

Tuesday night, April 17, has been set aside by the Elks Lodge in Pahokee for a special night to raise funds for their charitable efforts. A barbecue will be held at 6:30 with beef, pork and chicken and the price will be reasonable, according to the chefs in charge.

Starting at eight o'clock several groups of famous singers will be presented in an entertainment program. The "Suntones" is one group planning to appear on the program. Another famous group is the "Mix-masters" from Boynton.

Elks members are anxious that a good attendance take advantage of the barbecue and the evening's entertainment because money is needed for the charity work that the lodge carries on.

Bid Received On Glades Office Bld.

De Voss Construction Company, Lake Worth, appeared to be the low bidder for construction of a second story addition to the county's Glades Office Building.

The firm submitted the low bid on the project for a price of \$67,775. Several extras, if the commission gives its approval, would run the price higher but well under the \$85,000 budgeted for the job.

County Commissioner Paul Rardin, Canal Point, said the new addition will provide court room facilities and office space for the Glades Magistrate Court and space for use by the County Zoning Department's inspection section.

Leonard C. Brown Seeks School Job

Leonard C. Brown of West Palm Beach, 41 year old Veterans Service Officer and former instructor in Pahokee High School, this week announces his candidacy for membership on the Palm Beach County School Board. Mr. Brown is married to the former Nancy Stevens of Pahokee and has a wide circle of friends in the Glades.

In announcing his candidacy Mr.

Brown said that "an able educator is better able to serve as a county school board member." His full statement follows:

"Parents of school age children are urged to consider the need for at least one member of the school board with academic as well as administrative background. Such a background is needed in order to cope with the wide variety of school board functions."

Brown's own academic life includes graduation from Gordon Military College, Bachelor of Arts degree from the University of Georgia and Master of Science degree from Florida State University.

Brown believes it is important that an experienced educator serve on the school board. He has teaching experience both on the high school and college levels. He has taught at the Pahokee High School and the Florida Southern College Branch at Palm Beach Air Force Base.

His administrative experience, in addition to executive work in his father's foundry and machine shop in Georgia, includes being the Academic Director of the Florida Southern College Branch at Palm Beach Air Force Base and the County Veterans Service Officer.

"In a space-oriented age where education and training are of growing importance to our boys and girls, more emphasis should be, and will be placed on early exposure to the latest educational advances," Brown says.

"Complete and proper planning of Palm Beach County's future school system involves more than securing land and buildings for more classrooms. It also involves carefully researched academic advances to better educate our children."

"If elected to the school board, I will be a sympathetic supporter of policies and plans that will better equip our children for the age they must live and work in. And that means anticipating a definite growth in our county's industrial life and opportunities for jobs-at-home."

Leonard C. Brown lives with his family at 612 Cherry Road, West Palm Beach. He and his wife, the former Nancy Stevens of Pahokee, have four children.

The president announced that the Betty Mills Circle will have charge during May of the family night suppers held each Wednesday night.

Mrs. Guthrie Colvard presented the Calendar of Prayer, and sang a solo at the close of the program.

Max Wilson, who was called home from Kansas City, Kansas, on account of the death of his mother, Mrs. F. M. Wilson, is remaining for a visit with his father, F. M. Wilson, for several days.

Cancer Crusade Underway In PBCo

To dramatize the gains during the past 25 years, 1962 has been designated "Cancer Progress Year" and this theme is the banner under which the annual Cancer Crusade is now being conducted throughout Palm Beach County.

The annual fund raising and public education campaign opened April 1 and will continue throughout the month with all county communities taking part in a drive to raise \$125,000 to be used in a fight against the disease.

Harry Massey, county Crusade chairman, noted this week that 25 years ago there was no atom bomb, no television, no man in outer space and to date the progress of electronics has not yet developed in the field of cancer research.

However, in human terms, he said, progress in cancer control has been dramatic and remarkable. In 1962 there will be over 1,100,000 persons alive who have been cured of cancer. Twenty-five years ago there were 160,000.

The cure rate for cancer has climbed from one out of seven 25 years ago to better than one out of three today. This year, 42,000 people will be saved from cancer who would have been lost had they developed the disease 10 years ago.

"There is a growing realization, among the public," Massey said, "that the possibility of preventing deaths from cancer today is greater than for any other chronic disease if the cancer is diagnosed early and promptly treated." People, he said, are becoming more and more aware that early diagnosis and prompt treatment are the best protection against death from cancer.

"Persuading people to have annual health check ups and to go to their doctors at the first sign of a danger signal, is the principal objective of our Crusade's public education program," Massey said. "It bears the same importance as raising funds for cancer research."

PTA Renames Mrs. Eli McCall As Pres.

The annual election of officers was held Monday night by the Canal Point PTA and Mrs. Eli McCall was chosen to serve her second year as president. Named along with her were: Floyd Erickson, first vice president; Mrs. James Gibson, second vice president; Mrs. Earl Wilson, secretary; Mrs. Tom Braddock, treasurer; and Mrs. Billie Huddle, historian.

A special installation ceremony will be held on May 7 at which time the newly elected officers will take up their new duties.

Mrs. Helen Henderson's second grade room and Mrs. Ruth Stewards third grade rooms tied for the monthly attendance award. At the request of Floyd Erickson, safety chairman, the group will ask the county school board for improved red warning lights on the school buses.

The program was presented by Miss Jane Plumer, county health nurse, who introduced Miss Banna Rodriguez of West Palm Beach, mental health nurse consultant for the Palm Beach County Health Department, who spoke of the county's facilities for treating mental health patients, which she said are in urgent need of expansion.

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

Christian Science Group Of Canal Point

"The power of spiritual thoughts to dispel apathy and idleness will be brought out in Christian Science church services Sunday.

Bible readings in the Lesson Sermon entitled "Unreality" will include these verses from "Proverbs (6): "How long wilt thou sleep, O sluggard? when wilt thou arise out of the sleep? Yet a little sleep, a little slumber, a little folding of the hands to sleep: So shall thy poverty come as one that travelleth, and thy want as an armed man."

A correlative passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 240): "If mortals are not progressive, past failures will be repeated until all wrong work is effaced or rectified. If at present satisfied with wrongdoing, we must learn to loathe it. If at present content with idleness, we must become dissatisfied with it."

Sonny Hooks of Miami was the weekend guest of his parents, Mr. and Mrs. D. L. Hooks of Canal Point.

*Sure, she's a grand old flag!
That's why we salute her.
That's why we pledge allegiance to her.*

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.
